Introduction from the Head of Career Centre

Our MBA graduates have excelled amid global economic uncertainty, with 94% of the 2018 class accepting job offers within three months of graduation.

Demand for London Business School (LBS) talent continues to transcend borders, sectors and markets. The class – who share over 60 nationalities – took up roles across 35 different countries, with over half starting their post-programme careers within the UK.

Consulting remained the leading sector of choice, whilst a 3% uplift in technology placed it in joint second alongside finance. Technology is becoming an increasingly attractive destination for our graduates and during the summer over a third of our first year MBA’s completed internships in the sector. An uplift was also seen in roles across consumer and retail, healthcare, energy and in those using their newly equipped skillset to pursue their own business venture.

Our students join us from a variety of backgrounds and offering stimulating and customised experiences is at the heart of what we do. That’s why we deliver the world’s most flexible MBA, ensuring students are able to tailor the programme to meet their personal interests and achieve their desired career outcomes.

We congratulate our MBA class of 2018 on their success so far. Our students continue to distinguish themselves as world-class talent in a competitive and turbulent job market and we look forward to watching their impact on the companies that have recruited them, and the business world at large.

“Peer support and specifically the Career Centre’s use of student knowledge and expertise was key in helping me to transition to my current role with McKinsey. The Career Centre organised numerous CV workshops, coaching sessions and case workshops; these were led by peers or second-year students who either worked in consulting or had recently been successful during the consulting recruitment process. Their experience, guidance, and support was invaluable, and I believe it really helped me receive my employment offer.”

Stefanie Zipf, MBA2018, Associate, McKinsey & Company

“I went from making records with Billboard 100 artists to working with FTSE 100 executives, so to say that my MBA helped me switch career paths is an understatement. It wasn’t a straight line, but it was made possible with the support from friends I made during the programme as well as the guidance and perspective of one-on-one sessions with sector specialists in the Career Centre.”

Michael Freyer, MBA2018, Senior Product Manager, Quorso

* Conversion rates as per date of offer

** Purchasing power parity (PPP) included due to the high number of students who have salaries in non-US dollar currencies. The World Bank’s implied PPP rate of exchange was used to equalise the purchasing power across economies.

Other compensation includes sign-on and end-of-year bonus where we have sufficient data.

Salary data does not include sponsored or self-employed students in accordance to MBA CSEA guidelines. The mean international dollar salary would rise to $132,031 international dollars if sponsored students are included.

“I chose LBS because it’s at the epicentre of global business in so many ways. I also chose it because I was excited about the biggest and best companies in the world coming to LBS to seek talent; but perhaps more than that I wanted to be a part of the LBS community. The best thing about LBS is the community: the breadth of achievement and the fact that everybody will make time for you.”
